EDUCATION

Indian Institute of Information Technology Pune

Nov 2022 – Present

B.Tech - Computer Science and Engineering with Honors in ML - **CGPA - 8.59/10.0** Pune, Maharashtra

EXPERIENCE

CreditSea

May 2025 - Jul 2025

Full Stack Software Engineering Intern - Typescript, Node.js, Next.js, MongoDB

Raipur, Chattishgarh

- Utilized TypeScript, MongoDB, Next.js, Node.js, React.js, Git, and Postman for full-stack development and API integration.
- Collaborated with cross-functional tech teams to design and implement advanced MongoDB aggregation pipelines and optimized filtering logic, improving loan data retrieval speed and risk scoring accuracy by over 30%.
- Built a dynamic dashboard to streamline daily follow-up calls, enabling the team to achieve **70%+** outreach efficiency across **5000+** active loan customers.
- Designed notification using typescript and Firebase SDK to keep over **3+** lakh users informed about their loan application.

TECHNICAL SKILLS

Programming Languages: Java, C/C++, Python, TypeScript, JavaScript, SQL, CSS, HTML

Technologies/Frameworks: NodeJS, ExpressJS, MongoDB, PostgreSQL, MySQL, Rest API, Tailwind, ReactJS

Coursework: Data Structures, Algorithm analysis, Computer Network, Operating systems, Database Management System, Object Oriented Programming

Extracurricular: Team Management, Public Relations, Event Management

Developer Tools: Linux, VS Code, Git, IntelliJ Idea Ultimate, Eclipse, MySQL workbench

PROJECTS

FinTrack 🗄 | Node.js, Express, PostgreSQL, chart.js

Feb 2025

- Developed a full-stack finance tracker using Node.js, Express.js, EJS, and PostgreSQL for income and expense management.
- Integrated **Google OAuth 2.0** for secure authentication, automated **email notifications**, and real-time budgeting alerts.
- Utilized **Chart.js** to build interactive financial dashboards with real-time data visualization.
- Developed automated monthly **PDF report** generation for comprehensive financial summaries.

Wanderlust 🗄 | JavaScript, MongoDB, Express.js, Node.js, Bootstrap

Jun 2024

- Developed a platform using Node.js, Express.js and MongoDB which helps user to rent home/hotels.
- Built **RESTful APIs** for seamless listing management, improving server response efficiency.
- Integrated Passport.js for secure user authentication and role-based authorization.
- Leveraged **Mapbox API** for real-time location tracking and advanced search filters for location and price-based listings.

ACHIEVEMENTS

- LeetCode **Knight**, top **6%** globally with maximum rating of **1852** rating. 🗄 [LeetCode Profile](#)
- 3 star** on codechef with Maximum rating of **1641**. 🗄 [Codechef Profile](#)
- Level8** (Master) on Code360/codestudio and college monthly topper **6** times.
- Scored **98.3 percentile in JEE Mains-2022** and cleared JEE Advanced - 2022.

POSITION OF RESPONSIBILITY

QuantNum, Mathematics club of IIITP

Jan 2024 – Present

Founding Member & Public Relations

IIIT Pune

- Organized the highly successful inter-college Maths event 'Equation' on 24th August 2024 with **500+** student registrations.
